

WALTER E. NELSON COMPANY

WENCO Brand
CLEANING SYSTEMS

DRYING AGENT *Heavy Duty Wetting Agent*

Description:

DRYING AGENT is a concentrated nonionic rinsing additive. **DRYING AGENT** lowers the surface tension of the rinse water in the rinse cycle. This sheeting action eliminates water spots and streaks that can make clean dishware look dirty. **DRYING AGENT** also has the ability to suppress foam at temperatures above 115°F. This defoaming capability allows for more efficient operation by increasing performance of pumps. This product can save many dollars as compared to hand drying. **DRYING AGENT** can be used through auto dispensing equipment or a separate rinse tank.

Use Directions:

Depending on water conditions the injection system should be set to deliver 50-300 PPM rinse aid or approximately 1/3 oz. per 10 gallons in the rinse cycle.

This concentration level must be maintained with an injection system. Adjust the injector to achieve rapid sheeting.

If temperature in the dishwasher is allowed to drop below 120°, excessive sudsing may result. For best results **DRYING AGENT** should be used at 125°F or above.

Available Packages:

✓ **5 Gallon Pail**

TECHNICAL DATA

Color: Blue
Specific Gravity: 1.004
Density: 8.36 lbs/gal.
pH Conc.: 5.0 - 7.0
Biodegradable: Yes
Viscosity @ 75F: Thin
Freeze Stable: Yes - 3 Cycles
Phosphates: No

DRYING AGENT

Date Prepared: 06-12-02 By Charles D. Werner

SECTION 1 - PRODUCT IDENTIFICATION

Distributor Name: Walter E. Nelson Company	Emergency Phone No: 1-800-228-5635 ext. 059
Address: 5937 N. Cutter Circle, Portland, OR 97217	
Trade Name: DRYING AGENT	Product Type: Drying Agent
Product codes: FLLRAFBX	

SECTION 2 - INGREDIENTS

Chemical Name/Common Name:	CAS NO.	PERCENT (optional)	TLV (Source)
Anionic / Nonionic Surfactant Blend	LD ₅₀ (oral-rat) > 5000 mg/kg	< 25	NE

No toxic chemicals subject to the reporting requirements of section 313 of Title III and of 40 CFR 372 are present

SECTION 3 - PHYSICAL DATA

Boiling Point: (F) 212 (100 C) Freeze Point 32 F (0 C)	Specific Gravity: (H ₂ O = 1.0) 1.0	pH: 7.0 - 8.0
Vapor Pressure: (mm/Hg): Not Determined	Vapor Density: Heavier than air	
Solubility In Water: Completely miscible		
Evaporation Rate (Vs ether) Slower		
Appearance and Odor: BLUE, Liquid, Non-Viscous, Faint Sweet Odor		

SECTION 4 - FIRE AND EXPLOSION HAZARD DATA

Flash Point (T.C.C.): > 100 F
Extinguishing Media: non-flammable and non-explosive No special procedures required.
Special Fire Fighting Procedures: none required.
Unusual Fire and Explosion Hazards: NOTHING SPECIAL.

SECTION 5 - REACTIVE DATA

Stability: Stable	Incompatibility: non-reactive.
Hazardous Decomposition Products: none	

SECTION 6 - HEALTH HAZARDS

Threshold Limit Value - Product (See Section 2 for Ingredient TLV)	None Established
Primary Routes of Exposure: Eye - yes Skin-No Oral-yes Inhalation-yes Other	
Signs and Symptoms of Over-exposure (Acute): EYES: Contact with concentrate will irritate the eyes.	
Signs and Symptoms of Over-exposure (Chronic): Undetermined	
Medical Conditions Aggravated by Over-exposure: none known	
Carcinogen or Suspect Carcinogen Ingredients: NTP - NO IARC - NO OSHA - NO NONE	

SECTION 7 - EMERGENCY AND FIRST AID PROCEDURES

Eyes: Flush with immediately with lots of running water for at least 15 minutes holding eyelids open. Get medical attention.
Skin: Wash skin with soap and water. Remove contaminated clothing & shoes. Wash before reuse.
Ingestion: If vomiting occurs spontaneously, keep victim's head below his hips to prevent his breathing vomitus into his lungs. Drink 1 to 8 glasses of water or milk to dilute. Call physician or poison control center immediately. Treat symptomatically. Do not give anything by mouth to an unconscious or convulsing person.
Inhalation: Get to fresh air.

SECTION 8 - SPECIAL PROTECTION INFORMATION

Respiratory Protection: not normally required	Ventilation Requirements: Adequate ventilation required.
Protective Gloves: not normally required.	Eye Protection: Not normally required. Recommended if used overhead or misting or spraying.

SECTION 9 - SPILL OR LEAK PROCEDURES

Steps to be Taken if Released or Spilled: For small spills, mop or wipe up and contain. For large spills, contain by diking with absorbent material and contain. Rinse with water into sanitary sewer system.
Waste Disposal Methods: Note that the contaminates of the product must be consider when disposing . Consult appropriate Federal, State and Local regulatory agencies to ascertain proper disposal procedures and comply with them.

SECTION 10 - STORAGE AND HANDLING INFORMATION

Precautions to be Taken in Handling and Storage: nothing special is required. Do not mix chemicals. This product is non-hazardous for storage and transport according to DOT regulations. Keep container tightly closed when not in use.
