

WENMIX #7

## Two-in-One Refresher

# SUMMER RAIN

### Odor Eliminator & Fabric Refresher

**SUMMER RAIN** is a proven performer as a fabric refresher in eliminating common odors. **SUMMER RAIN** is especially effective on textiles such as carpets, upholstery, draperies, bedding, clothing and automotive interiors. The advanced refresher molecules capture the malodor molecules and lock them away. The odor causing molecules are encapsulated and then not perceived at all. For maximum effectiveness the malodor must be contacted directly by **SUMMER RAIN**. **SUMMER RAIN** also functions extremely well as a classic air freshener, delivering significant amounts of fragrance provide implicit effects on malodors.

#### DIRECTIONS FOR USE:

For best results spray a light mist on the odorous fabric or hard surface. Odor will fade immediately. Recommended dilution 1:3.

As a non-contact odor control agent it can be sprayed, fogged or added to cleaning and rinsing solutions. Dilutions of 2oz per gallon should provide excellent deodorizing and economy. Spray **SPRING RAIN** inside soiled linen bins or garbage pails to control odors throughout the area.
