

WENMIX #9

## WENCO 910 Clinging Bathroom Cleaner

When it comes to cleaning tough stains and residues, nothing outshines **WENCO 910**. This heavy duty cleaner out performs them all. Its unique formula safely removes soap scum and body oils, as well as hard water film, from showers, sinks, countertops, etc. **WENCO 910** cleans and degreases porcelain, resilient tile, ceramic tile, grouting, aluminum, stainless steel, chrome and glass. Its high foaming properties allows it to be used in foam guns when cleaning large areas. Thick rich foam sticks to both horizontal and vertical surfaces for longer contact cleaning time. A clean pleasant fragrance, makes it a pleasure to use.

Closed loop chemical containment system eliminates drips, leaks and mess. Each bottle contains a WENMIX valve and can only be dispensed through a WENMIX system.

### DIRECTIONS FOR USE:

1. Use daily.
2. Foam on surface using trigger sprayer.
3. Allow 5 minutes to work.
4. Wipe or brush.
5. Rinse.

## MATERIAL SAFETY DATA SHEET

### WENMIX #9 WENCO 910 Bathroom Cleaner

Date Prepared: 7-10-01 By Charles D. Werner

SECTION 1 – PRODUCT IDENTIFICATION			
Distributor Name: Walter E. Nelson Company	Emergency Phone No: 1-800-228-5635 ext. 059		
Address: 5937 N. Cutter Circle, Portland, OR			
Trade Name: WENMIX 910 Bathroom Cleaner	Product Type: Acid based Cleaner		
Chemical Family: FLR910GM			
SECTION 2 – HAZARDOUS INGREDIENTS			
Chemical Name/Common Name:	CAS NO.	PERCENT (optional)	TLV (Source)
* 2-(2-butoxythoxy)ethanol	112-34-5	< 20	35 ppm (Dow) (skin)
* Phosphoric Acid	7664-38-2	< 20	1 PPM (OSHA)
* Indicates toxic chemical subject to the reporting requirements of section 313 of title III and of 40 CFR 372			
This product may contain chemicals known to the state of California to cause cancer or birth defects or other reproductive harm.			
SECTION 3 – PHYSICAL DATA			
Boiling Point: (F) approx. 212 F	Specific Gravity: (H <sub>2</sub> O = 1.0)	1.1	pH: < 1.0
Vapor Pressure: (mm/Hg) 18	Vapor Density:	Heavier than air	
Solubility In Water: Complete			
Evaporation Rate (Vs ether)	slower than ether		
Appearance and Odor:	Green Color, liquid, Mint Fragrance.		
SECTION 4 – FIRE AND EXPLOSION HAZARD DATA			
Flash Point (T.C.C.): NONE	Flammable Limits	Upper N/A	Lower N/A
Extinguishing Media:	water Fog.		
Special Fire Fighting Procedures:	Fire fighters should wear self-contained breathing apparatus and full protective clothing. Use Water spray to cool nearby containers and structures exposed to fire. Thermal decomposition emits toxic fumes of phosphorus.		
Unusual Fire and Explosion Hazards:	Nothing special.		
SECTION 5 – REACTIVE DATA			
Stability: Stable	Incompatibility:	Strong oxidizers or reducing agents, alkalis, combustibles and soft metals .	
Hazardous Decomposition Products:	At flame temperatures, will emit toxic phosphorus oxide fumes.		
SECTION 6 – HEALTH HAZARDS			
Threshold Limit Value - Product (See Section 2 for Ingredient TLV)	None Established		
Primary Routes of Exposure:	Eye - yes	Skin- yes	Oral-yes Inhalation- no Other
Signs and Symptoms of Over-exposure (Acute):	EYES: Vapors and mists are corrosive to the eyes. INHALATION: Phosphoric acid has a low vapor pressure at room temperature and is not expected to present a significant inhalation hazard under ambient conditions. Mists are corrosive to the nose, throat, and mucous membranes. SKIN: Redness, drying of skin or other signs of irritation or contact dermatitis. May not produce an immediate burning sensation upon skin contact, delaying the awareness of the worker that contact has been made.		
Signs and Symptoms of Over-exposure (Chronic):	Slightly toxic with repeated inhalation or ingestion. The glycol ether in this product has been found to cause red blood cell hemolysis in rats after ingestion.		
Medical Conditions Aggravated by Over-exposure:	Persons with pre-existing skin disorders, eye problems, impaired respiratory function may more susceptible.		
Carcinogen or Suspect Carcinogen Ingredients:	NTP - NO	IARC - NO	OSHA - NO NONE
SECTION 7 – EMERGENCY AND FIRST AID PROCEDURES			
Eyes:	Flush with immediately with lots of running water for at least 15 minutes holding eyelids open. GET MEDICAL ATTENTION IMMEDIATELY.		
Skin:	Flush with water for at least 15 minutes. Remove contaminated clothing & shoes. Wash before reuse.		
Ingestion:	If conscious, drink 1 to 8 glasses of water or milk to dilute. DO NOT INDUCE VOMITING. GET MEDICAL ATTENTION IMMEDIATELY. Treat symptomatically. Don not give anything by mouth to an unconscious or convulsing person.		
Inhalation:	Get to fresh air. Give artificial respiration if not breathing.		
SECTION 8 – SPECIAL PROTECTION INFORMATION			
Respiratory Protection:	not normally required	Ventilation Requirements:	Adequate ventilation required. Mechanical required if necessary to maintain exposure below PEL.
Protective Gloves:	Wearing resistant gloves is required. Eye Protection: Not normally required. Recommended if used overhead or misting or spraying.		
Other Protective Clothing:	Where gross eye and skin contact may occur use and wear appropriate protective clothing, including resistant clothing, rubber boots with pants on the outside, and rubber gloves.		
SECTION 9 – SPILL OR LEAK PROCEDURES			
Steps to be Taken if Released or Spilled:	For small spills, dilute with water and rinse down sanitary sewer. For large spills, contain by diking with absorbent material and carefully neutralize with lime or sodium carbonate. When neutralized, rinse with water into sanitary sewer system.		
Waste Disposal Methods:	The contaminates of the product must be consider when disposing. Consult appropriate Federal, State and Local regulatory agencies to ascertain proper disposal procedures and comply with them.		
SECTION 10 – STORAGE AND HANDLING INFORMATION			
Precautions to be Taken in Handling and Storage:	Store in a cool dry, well ventilated place away from incompatible materials. Keep container tightly closed when not in use.		
Other Precautions:	Empty containers will retain product residue and vapors. Always obey hazard warnings and handle empty containers as if they were full. When mixing with water, always add this product slowly to water and stir.
